

Outdoor Recreation Initiative (ORI)

2026 ORI Workshop Invitation

Outdoor
Recreation

The Outdoor Recreation Initiative requests your participation to help determine how outdoor recreation is funded in your region! As a locally-led funding program now in its fourth year, a new format is being introduced to begin building the foundation for long-range regional recreation planning.

You are invited to join this year's in-person kick-off workshop to contribute your local expertise in the process and help identify your region's recreation vision and project funding priorities.

WHAT DOES THIS MEAN FOR YOU?

Facilitated by the Division of Outdoor Recreation's planning team, these regional workshops will be used to guide annual program funding to outdoor recreation projects in your community, build regional relationships, and develop a unified vision for recreation that supports the diverse opportunities you value. By contributing to this regional ORI workshop, you will also have the added opportunity to be involved in the end-of-year project ranking process, where you can cast your vote on specific investments to your region. Only those individuals who attend the kick-off workshop will have this chance!

Lunch is provided! Registration is required to attend.

To register, click the link for your region below!
